

Product Release

Hydro Tek Distributor Marketing Bulletin

August 2010

**ALL ELECTRIC
EMISSION FREE**

Shown with optional Pro-Tect-It cage.

Hydro Tek introduces the **HE Series**: an environmentally friendly, all electric hot washer. This is an exhaust free unit which produces no hazardous fumes or emissions making it ideal for indoor operation. This system offers high output cleaning capacity with a 2-gun version available, in order to clean twice as fast and efficient. 460V 3 phase power eliminates the need to use combustible fuels, fill fuel tanks, change oil filters, and complies with emission requirements. The unique, maintenance free, dual bank coil instantaneously heats the water up to 250° steam providing continuous hot water. The stainless construction provides corrosion proof protection in the harshest environments and is ideal for the food processing, mining, manufacturing, and oil industries.

SPECIAL INTRODUCTORY PRICING:

Model# HE30004E4 (1-gun/ Max temp. 250°F): \$10,295

Model# HE30005E4 (2-gun/ Max temp. 200°F): \$11,295

Additional Standard Features:

- The unique Dual Bank Heating System allows for maximum energy conservation by turning off 50% of the heating capacity when either only one gun or lower heat is needed.
- Smart Start™ 3-Stage Startup prevents circuit surge overload of the power source.
- Inlet 10 micron water filtration for coil protection and reduced maintenance.
- Auto start with adjustable time delay shutdown further protects the pump and saves energy.
- 2 gun to 1 gun adapter to utilize full 4.8 gpm while using a single gun. (HE30005E4)

Optional Upgrades include:

- Stainless Steel Pro-Tect-It cage frame with 4 point overhead lifting eyes.
- Stainless Steel hose reels.
- Anti-scale/corrosion inhibiting filter cartridge which has a capacity of up to 25,000 gallons; protects your heating element from minerals in the water, saving time and money on repairs.
