

Steam / Hot / Cold Water: Diesel Heated, Electric Motor

The **HP Series** combines the cleaning power of high pressure and high water flow with the grease cutting effectiveness of hot water. Simply pull the trigger on the spray gun, and instantly the machine turns itself on and delivers high pressure cleaning power. The temperature can be adjusted to cold, hot, or steam for any cleaning application. The portable design and stainless steel construction offers years of trouble free service and cleaning performance anywhere electrical power is available.
