

**Transporter for T185TW (200 gal) or T270TW (270 gal) tank skid**

The Tow & Stow transporter is designed for travel at and around a casino, shopping complex, school campus, and other facilities where access is too narrow for a full size trailer. Also ideal for companies who store their wash equipment on site, only takes up 7' x 4' of storage space. The Tow & Stow™ Wash Cart is balanced with weight distributed over the two axles and low tongue weight, just right to be pulled by a Cushman/Gator type UTV (utility vehicle).

Remote area cleaning and a water supply nearly anywhere, build the bundle that works for you: **1)** Start with the tank skid transporter. **2)** You choose either a 200 gallon or 270 gallon water tank skid, which includes an inlet hose and high pressure and inlet hose reels. **3)** Choose either a hot water or cold water pressure washer.

<b>MACHINE CAPACITY</b>	Requires CPS, SS or SK pressure washer & tank skid	
<b>MOUNTING</b>	Ships factory assembled & plumbed	
<b>SUSPENSION / AXLE</b>	Qty 2) 2000# axles
