The Nilfisk HPW - High-Pressure Washers replacement parts and accessories catalog is a compilation of replacement parts and accessories not only for Pressure-Pro, Inc. and Hydro Tek pressure washers, but also for many other pressure washer brands. In 2020, we will continue to expand on our strategy to increase stock of a variety of high moving parts on both the East and West Coast in order to minimize the time that it takes to get your parts, which will help better serve you and your customers.

The addition of several U.S. made surface cleaners, hose reels, and Hydro Vacuums to the catalog as well as continuing to offer favorites such as the *Slap Happy Plumbed Pumps*, will help you present a very competitive product offering in your marketplace. With a combination of over 50 years experience, Pressure-Pro, Inc. and Hydro Tek are dedicated to providing you with the best value, power of choice and unbeatable quality. We will continue to strive for our customer satisfaction and are committed to serving your needs.

From all us at Pressure-Pro, Inc. and Hydro Tek, who now makes up the Nilfisk HPW team, thank you for all your support.

HYDRO TWISTER® SURFACE CLEANERS

Hydro Twisters® are industrial flat-surface cleaners that connect to a pressure washer and use a spray bar rotating at a high speed just above the ground to clean concrete more consistently and faster than an operator with a wand, with less fatigue. A surface cleaner uses much less water than a hose wash down. Hydro Twister surface cleaners can be used with cold water or up to 250°F hot water, on some models, for extra stubborn grease or grime, eliminating the need for soap pretreatment in most applications.

The Hydro Twister® Advantage... Low Profile Deck: Will fit under benches & machinery, Less Fatigue: Handle is mounted at an ideal working angle, rustproof, stainless deck & handle, heavy duty for daily use, Brush guard to reduce splash on building windows and operator.

Hydro Twister® suggested applications: Driveways, drive-thrus, patios, garages, concrete sidewalks & parking lots, school yards, factory & warehouse, restroom floors, food processing floors, service stations, pool decks, sport courts, roofs & decks, loading docks, tile flooring, stadiums, marina docks, mold, moss & mildew removal.

INDUSTRIAL

USE WITH
COLD OR
HOT
WATER

The **TRIDENT HYDRO TWISTER®** cleans more square footage than others in their class. The proprietary aluminum spray arm with compound angled nozzles not only clean up to the edge but also push water aside to create more impact on the surface they clean. All stainless, rustproof deck and handle construction will keep your surface cleaner working and looking great for years.

TRIDENT HYDRO TWISTER®

3 Casters with Wishbone Handle

The caster version with three non-marking casters that allow the operator to freely move side to side or forward. Handle is free floating and folds for storage. The high pressure hose is protected inside the stainless handle tubing, ready for you to connect the pressure washer trigger gun.

HYDRO TWISTER® SURFACE CLEANERS

NEW

The Contractor Hydro Twister® is the proven choice for professional surface cleaning...with four tools for your cleaning needs. The Contractor Twister combines a rotary surface cleaner, spot / gum remover, hydro broom, and an edger to create an **all-in-one deluxe surface cleaner**. The dual trigger guns activate either the rotary spray arm or one of the other three on-board tools. By combining four processes into one unit, you will save time and fatigue when cleaning large expanses of concrete, parking lots or other flat surfaces. The secret that makes the Contractor Hydro Twister® so effective is the ideal water spray angles and nozzle heights that optimize cleaning power.

An onboard edging tool cleans close to planters, columns, and walls or use the water broom to rinse a large area.

Caster pivot lock allows the operator to choose to lock casters for use in straight lines or unlock for cleaning side-to-side.

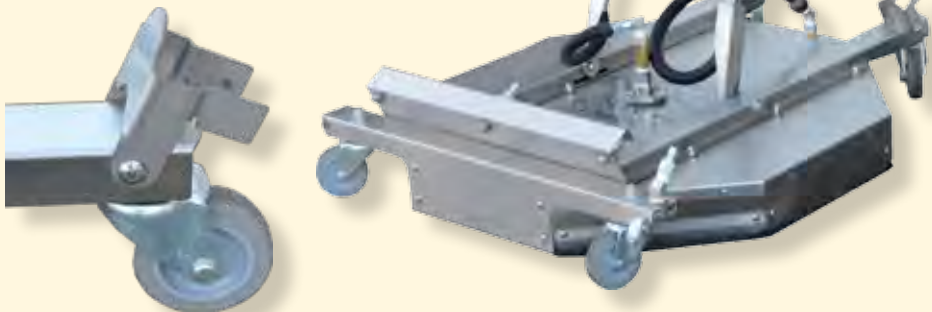

The under-deck spot remover uses a "six-shooter" nozzle to blast away gum or paint.

HYDRO VACUUM® WASTEWATER & FLOOD RECOVERY VACUUMS

Capture and transfer up to 3000 gallons of water per hour in one step with the compact RPV vacuum system. Features a powerful, industrial 2-stage vacuum motor. A heavy duty, internal pump transfers wastewater up to 100' away while vacuuming continues...no need to stop and dump the collection tank. It is ideal for interior and exterior facilities maintenance contractors who need to collect wash water or for restoration contractors who need to pick up large volumes of water after a fire or flood. Increase your efficiency with optional vacuum tools or even a Vacuum Twister (For use with cold water or hot water up to 200°F)

The **Hydro Vacuum®** control panel has separate, lighted control switches for vacuum and pump out functions giving you the option to run them independently or together. A basket strainer collects large debris, such as leaves or trash, and quickly lifts out for dumping. There is a drain plug at the bottom of the tank to dump any residual sediment that may have settled to the bottom. (For use with cold water or hot water up to 200°F)

GP HIGH PRESSURE SPRAY NOZZLES

NOZZLE	DESCRIPTION
0° - RED	Cutting Nozzle. It delivers a concentrated stream that can gouge or cut. It can cut stubborn stains from concrete and other hard surfaces.
15° - YELLOW	Chiseling Nozzle. Working at a 45° angle, this nozzle works like a scraper, stripping paint, grease and grime from hard surfaces.
25° - GREEN	Flushing Nozzle. The most commonly used nozzle for cleaning dirt from siding, sidewalks and metal furniture as well as for wet sweeping leaves.
40° - WHITE	Wash Nozzle. Its widespray allows you to wash and rinse a large area fast. It is usually safe with most surfaces, including aluminum siding, windows and vehicles.

Nozzle Fan Selection

Select the nozzle degree or spray angle, based on your application. Standard nozzle degrees – 0°, 15°, 25°, 40°. Using the wrong nozzle degree can damage the surface you are cleaning.

NOTE: The unique patented design of the Hudson Valve uses fluid pressure, as opposed to a lever arm and ball, as the force to close the valve. When properly installed, the valve will meet anti-siphon requirements. Flow rate is approximately 80% of flow supplied to valve.

HEIGHT: 5.0" / **DIAMETER:** HV-S1/2 = 3.0" / HV-1 = 3.75" / **MAX FLUID TEMP:** 90° F /

OPERATING PRESSURE: HV-S1/2 = 8 PSI - 100 PSI / HV-1 = 8 PSI - 65 PSI w/ a minimum 8 GPM flow rate

POLICIES

SALES POLICY

Pressure-Pro®, Inc. sells to qualified dealers/distributors who are in the business of reselling pressure washing equipment and providing repair, service, and support.

ORDERS

All "ground freight" parcel orders that are in stock will ship within one business day. Unless otherwise specified all parcel orders are shipped via preferred carrier. Next Day, 2nd Day and 3rd day shipments require a 2:00 PM EST deadline. *Additional Shipping Fees Will Apply.* All LTL (Less Than Truckload) shipments will ship at the carrier's standard service level unless expedited service is requested.

PRICING

Our pricing is subject to change without notice. We will make every possible attempt to inform our customers of any price changes at the time that the order is placed.

PAYMENT

We accept company checks, wire transfer, C.O.D., and credit cards (Visa, Master Card, American Express, or Discover). Credit card payment option is only available if paid prior to order shipment date. Cannot be combined with credit terms. 30 day terms are available upon credit approval. There will be a \$35.00 return check fee for insufficient funds. Invoices are considered past due 31 days after invoice date and will incur an interest charge of 1.5% per month. Please call for more information and a credit application.

SHIPPING POLICY

- FedEx is our preferred carrier for small parcel shipping (small parts or UPS-able machines under 150 lbs). UPS shipping and handling charges are prepaid and added to customer's invoice. Oversized items (by UPS standards) will incur additional handling charges.
- Less Than Truckload (LTL) shipments are sent F.O.B. factory freight prepaid and add. This gives our customers access to our *extremely* competitive negotiated freight rates. If a specific carrier is requested we will ship F.O.B. factory freight collect by the carrier of your choice.
- All orders will be treated independently for shipping. We will attempt to consolidate orders into a single shipment but if items must ship together they must be on the same purchase order. Orders on credit terms will not be considered for allocation or production scheduling until the credit department releases them.

SHORTAGES AND BACKORDERS

Count the pieces received against the driver's delivery receipt. Note any discrepancies in writing on the delivery receipt. *Be specific:* Identify or describe the missing item. Call your customer service representative immediately with any discrepancies.

FREIGHT DAMAGE CLAIMS

All freight delivered must be inspected for damage and noted on freight bill prior to signing!! Failure to do so will result in your company being liable for the damaged merchandise. Notify the carrier immediately upon delivery of any noticeable damage. We cannot assist you in working out a settlement with the carrier unless they are immediately notified of the damage. If you suspect internal damage **OPEN IMMEDIATELY!** Even if no damaged goods are suspected, open the carton within 24 hours and make a thorough inspection of the products. Hold all damaged goods and their packaging materials for inspection by the carrier.

***All Pressure-Pro® freight shipments are shrink-wrapped and strapped to the shipping pallet.
If an LTL shipment is not shrink-wrapped and/or strapped, inspect immediately.***

PLEASE INSTRUCT YOUR CUSTOMERS OF THIS POLICY AS WELL

DEFECTIVE MERCHANDISE AND WARRANTIES

The liability of Pressure-Pro®, Inc. is limited to the cost of the defective item. All products carry the manufacturer's warranty. The customer will be responsible for labor, and any other expenses connected with warranty repair or replacement. Freight charges are not covered under the warranty policy.

SPECIFICATIONS

Specifications are subject to change without notice. All models and parts meet or exceed PWMA (Pressure Washer Manufacturers Association) standards of +/- 10% variation.
